

DuPont™ Tyvek®
AIA Continuing Education Seminars

- **Fluid Applied Air Barrier Membranes: Advances and Applications**

Credit Earned: 1 AIA LU HSW 1 LU GBCI CE/LEED

Learning Objectives: After attending this seminar, you will be able to

- Discuss the impact of air leakage on building performance.
- Distinguish between Fluid Applied Air Barrier technical properties using their formulation chemistries.
- Design building envelope systems with a Fluid Applied Air Barrier.
- Specify a Fluid Applied Air Barrier System to meet your project's performance requirements.
